

What has happened so far?

The Russian leader's initial aim was to overrun Ukraine and depose its government, ending for good its desire to join the Western defensive alliance NATO. After a month of failures, he abandoned his bid to capture the capital Kyiv and turned his ambition to Ukraine's East and West. Russian's leader (Vladimir Putin) has refused to call it a war.

5.3 million refugees have fled from Ukraine. A total of £400 million had been raised for Ukraine. Lots of people have died during this conflict. After failing to capture Kyiv, Putin is now targeting the south/east of Ukraine and hopes to capture it. The war is going to carry on because Zelenskyy has no intentions on giving in his land. He will fight for his country to keep them safe.

What will happen after the Ukraine Russia war?

Might it be possible that this war could spill outside of the Ukraine borders? President Putin could seek to regain more parts of Russia's former empire by sending troops into ex-soviet republics like Moldova and Georgia, that are not part of Nato. Or there could just be miscalculation and escalation. Mr. Putin could declare western arms supplies to Ukrainian forces are an act of aggression that warrant relation. He could threaten to send troops into the Baltic states - which are members of Nato- such as Lithuania, to establish a land corridor with the Russian coastal exclave of Kaliningrad.

What can we do to help Ukrainian refugees?

In the UK we can look after Ukrainian children and their families in our homes. You can send clothes and anything else that could help Ukrainian families and send them off to charities.

Why are Russia invading Ukraine?

DINOSAURS!!!!
Grrrrrrrrrrrrrrrrrrrrrr
rrrrrrrrrrrrrrrrrrrrrr
rrrrrrrrrrrrrrrrrrrrrr

Dinosaurs were approximately alive for 165 million years. There were millions of types of dinosaurs! The smallest type of dinosaur was the size of a chicken! Argentinian paleontologists have discovered an apex predator dinosaur that was huge. It measures 35 meters long from tail to head! Argentinian paleontologists have also discovered that a reptile called the Mictodogotale which was a dinosaur who was never discovered for 30 years. it was one of the fastest velociraptor on earth at that period. Did you know that dinosaur fossils have been found in all seven continents!

- . Dinosaurs were around for millions of years
- . There were more than 700 species
- . The word dinosaur came from an English paleontologist.
- . One of the biggest dinosaurs was the Argentinosaurus

On Feb 10 2022 in Alberta, Canada scientists announced a newly identified dinosaur known by its Latin name than at other sites. Degrootorum the dinosaur is roughly a 79 million year old fossil and makes the new species 2.5 million years older than its closest relative.

Endangered Animals: Tigers and Polar bears.

The Boy At The Back Of The Class

This is the blurb of the Boy At The Back Of The Class; There used to be an empty chair at the back of my class, But now a new boy called Ahmet is sitting in it. He's nine years old (just like me), but he's very strange. He never talks and never smiles and doesn't even like lemon sherbets, which are my favourite.

But then I learned the truth: Ahmet isn't strange at all. He's a Refugee who's run away from a war. A real one. With bombs and bullies that hurt people.

The more I find out about him,
The more I want to help.

That's where my best friends Josie,
Michael and Tom come in. Because
Together we've come up with a plan.

Marmalade The Orange Panda

One morning, deep in the forest
a beautiful baby panda was born.
The panda was different to all the others
as he had dazzling orange fur.

"I will call you Marmalade!" His mummy whispered.

Meet Marmalade, the little panda who goes on a big
adventure to find out where he belongs.

Movie reviews

This time we have chosen to do a movie called Turning Red .about a girl who turns into a red panda .This movie is good family movie night movie it is also good for sleep overs .Everything about this movie is amazing mostly because of a representation of diversity like 2 girls in the movie that have diabetes and that the main character Mei-lin goes to an indidunus Canadian school and lives in a temple that honors her ancestors.

Now I will talk about a classic chitty chitty bang bang. It is just always amazing no matter your age. It is about 2 kids and their dad who magically end up in a country that hates children .so over all I give it a 4 out of 5 stars.

TRAVEL

Now our person we are focusing on is Oprah Winfrey who grew up in America with her grandmother.

Oprah Winfrey has millions to spend on travelling thanks to her talk show she enjoys going on cruises along the coast of America and even gone on a month-long cruise and she loves beaches so much that if you see her half the time it will be at the beach.

Ms Winfrey has been to the Tajmahal in India where she enjoyed the views and scenery about the beautiful site.

Oprah has made a trip to Australia where she held a koala at Australia zoo and visited the Ayres rock which is a massive red rock in the out back

Oprah say that no matter where you are on your journey that's exactly where you need to be and that saying will follow me for the rest of my life .
