

Qatar World Cup 2022

This is the first World Cup that will take place in winter. It usually takes place in June or July, so it is quite unusual. The Qatar World Cup started on the 20th of November with the final being played on the 18th of December 2022.

A total of 32 teams are competing in the Qatar World Cup. Teams are divided into eight groups, with four teams in each group. Among the teams are the winners of the last three Fifa World Cups: Spain, Germany and France.

Qatar is the smallest country to ever host the World Cup by land size and population. It will also be one of the hottest places for the players to play in, with very hot temperatures.

England's first match was on the 21st of November at 1 o' clock. Sadly, we couldn't watch it live because it was on a Monday!!

Human Rights

Thousands of people went to Qatar to help with construction of the stadiums. They were promised things that they didn't get like good pay and good working conditions.

They didn't have the right safety equipment to build stadiums, so a lot of people died during construction.

One Love

Some players were going wear rainbow armbands in support of LGBTQ+ rights in Qatar.

FIFA said that players found to be wearing the rainbow armbands could face yellow cards. Therefore, some teams decided not to wear them.
