

At St Michael's, children are excited to learn with confidence, together in God's hands. We are guided by our Christian values to inspire one another, encouraging confidence, committed and caring children to flourish through life's journey.

We are ambitious for all of our children, providing rich curriculum experiences which:

- Prepares them for the next chapter in life's journey.
- Gives them a deep understanding of their place within and beyond their community.
- Encourages them to become courageous advocates, challenging social injustice and championing global issues

All children have access to quality first teaching which balances knowledge and skill.

Long and medium term plans have been coherently sequenced to ensure that the principles of cognitive science and how children learn are embedded and exploited through teaching opportunities and resources.
